(Double Sided Tissue Tape)

(Heat Seal PET Tape)

(BOPP Tape)

Progress Through Innovation

OUR PRODUCTS

We are the leading manufacturers, exporters and suppliers of Industrial Tapes like Masking tape, Heat Seal Tape, Bopp Tape, Double Side Tissue Tape & Paper Tape .

- HEAT SEAL TAPES (PAPER & PET)
- DOUBLE SIDED TISSUE TAPES
- CRAFT PAPER TAPES (HMPSA/REMOISTENABLE)
- BOPP TAPES
- MASKING TAPES

MASKING TAPE

Description :- Chemline Masking Tape is designed after a long research and development under the guidance of our Managing Director and Technocrat Dr. R.N. Goel (PH.D IIT-Delhi). It is a high-performance and a multi-purpose paper tape coated with our own manufactured adhesive designed for consumer and commercial purpose. Provides adhesion to a wide range of plastic, metal and wood surfaces. Quik Tack Masking Tape made by Pressure sensitive Adhesive and quality Paper which is resistant to solvent and paints which helps in the masking process. It is also easily tearable and has good holding power.

Features:-

- No Edge Lifting
- Good Holding Power
- High-performance multi-purpose tape
- Resistant to strong solvents and paints
- Excellent in many Hardware and Wood Applications. Easily Tearable
- Will not tear while removing

Other Information :- All cutting sizes and Log Rolls are available as per customer requirements.

BOPP TAPE

BOPP TAPE:- **QUIKTACK** Brand BOPP (Bi- Axially Oriented Poly Propylene) tapes are made with in-house developed high tack adhesive, which provides guaranteed pilfer proof packaging in all types of weather conditions.

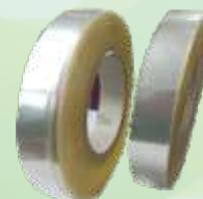

DOUBLE SIDED TISSUE TAPE

- Double sided tissue tapes are made from non-woven-tissue paper coated on both sides with acrylic or rubber adhesive and laminated with release paper.
- Double sided tissue tape is recommended for mounting light objects and may be used to laminate and fix foams, felts, papers, plastics, foils and textiles.

HEAT SEAL TAPE

- Heat seal tape is used for bonding together of direct mail, bank notes, cell phone boxes, food boxes, Sweet Boxes.
- This kraft paper based tape forms a heat activated bond to seal.
- They are of 2 types - Paper based and Polyester based.

Heat Seal Polyester Tape

Brown Paper Tape

CRAFT PAPER TAPE

1. Self Adhesive HMPSA Based.

- Self-adhesive paper tape can be quickly and neatly applied direct to the package or box, often from a dispenser. It is available in a variety of widths. Paper Tape has another advantage, it can be recycled.

Self Adhesive Paper Tape is of two types: -

Printed paper tape and Plain paper tape

- Paper tape is used for sealing of boxes and packages for Shipping and transit – ideal for the long haul, another Cardboard box or perhaps even art.
- House hold Paper tape is made of good paper and high grade adhesive.
- Paper Tape is eco-friendly and it can be a good substitute of any other filmic tapes.

2. Water Activated Paper Tape

Water Activated Paper Tape is suitable for sealing of Corrugated boxes/ Recycled boxes/ Core veneer etc. and other packaging application. The Product has a paper backing and a gummed high- tack; water- activated modified polymer based adhesive system.

- Environment friendly, Bio-Degradable & Recyclable.
- Moistened adhesive interacts with porous surfaces to form a powerful secure bond.
- Specially formulated adhesive ensures excellent bonding with various species of wood.
- Tape form a temper- evident seal that shreds if an attempt is made to pull it off before delivery.
- Tape form a temper-evident seal that shreds if an attempt is made to pull it off before delivery.

Boxes are sealed secure, yet easy to open without cutting tools.
