

Self Adhesive Label Stocks

BONDING TOGETHER

CERTIFICATIONS & COMPLIANCES

Widest array of over **500+** products

Global presence over **40+** countries

Strong & successful existence since **1990** in the industry

From a modest and humble beginning in 1990, CHEMLINE has emerged as one of the India's leading manufacturer and exporter of widest array of Industrial Adhesives, Coatings & Papers.

CHEMLINE INDIA LTD. manufactures a complete range of world class Adhesives and Coatings for Paper-Printing, Packaging and Converting, Flexible Packaging and Hygiene Industries, Labeling Adhesives for Breweries, Distilleries and Pharma Industries & Specialized Hot Melt Adhesives for vast range of applications, along with various downstream products like Self-Adhesive Label Stocks, Metallized Paper/Paper Boards, Coated Papers, Industrial Tapes.

Starting with its marketing activity in India, CHEMLINE has expanded into more than 40 countries including Europe & America and now has a wide network of distributors and agents all over the globe.

CHEMLINE possesses a very modern and green manufacturing installation with 'State of the Art' Facilities and Equipments for each range of products. The emphasis of the company is on 'Innovation' and therefore the core of the company is its Research and Development.

Dr. Ravindra Goel
Chairman & Managing Director

Giving New Dimensions To The Industry With Innovations

Under the leadership of Dr. Ravindra Goel, a Polymer Scientist, with Ph.D from IIT Delhi, Chemline has evolved into a globally recognized Indian brand. Dr. Goel possesses a deep understanding of emerging customer needs and remains actively involved in product development activities.

A dedicated team of professionals works relentlessly to deliver cost-effective, environmentally sustainable solutions

Dr. Ravindra Goel firmly believes in giving back to society. He is deeply engaged in supporting weaker sections of society.

Why Chemline For Label Stocks

Chemline is one of the leading manufacturers of various kind of Industrial Adhesives, since 1990, We have more than 500 different products including a range of Pressure Sensitive Adhesives (PSA) based on hot melts, water-based Dispersion and solution Polymer based PSA's.

We have perfected these pressure sensitive adhesives since 1990. Our venture on label stocks has primarily emerged out of chemline's strength in manufacturing PSA's required for label stocks, Industrial Tapes and other allied products.

Apart from good quality adhesives, to manufacture best of the Label Stocks required by this growing printed label industry, we have installed most modern facilities for coating of Hot Melt PSA's, and water based PSA's.

LABEL STOCKS

Chemline's label stocks are designed for a wide spectrum of applications across consumer goods, durable equipment, appliances, healthcare, and logistics. Our solutions cater to diverse product requirements, including:

Food & Beverage Labels: High-quality labels that ensure strong adhesion, clarity, and shelf appeal.

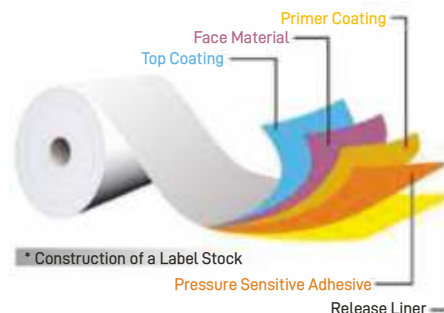

Durable Goods Labels: Engineered to withstand harsh environments, ideal for appliances, lawn and garden tools, and industrial equipment.

Healthcare & Medical Device Labels: Reliable, compliant, and safe for sensitive applications.

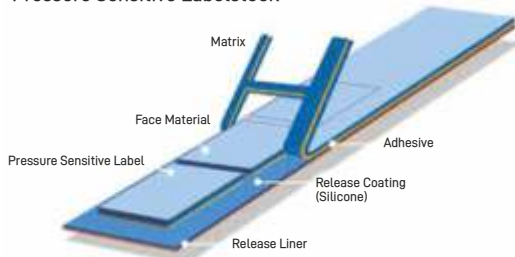

Security & Specialty Labels: Custom solutions such as tamper-evident, anti-counterfeit, and track-and-trace labels.

Functional Labels: Innovative options like resealable food labels, dissolvable labels for food service, and other performance-driven formats.

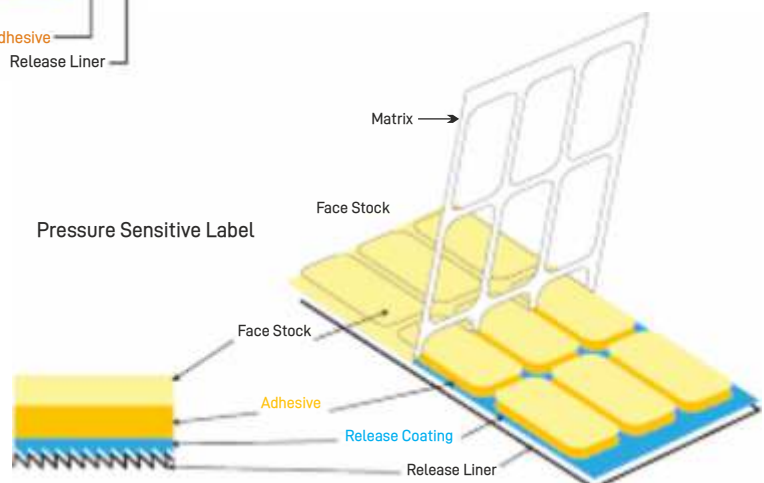

With a strong focus on quality, performance, and innovation, Chemline label stocks deliver consistent results across industries worldwide.

PAPER FACE STOCKS

Chemline offers a range of Face Stocks for variety of applications :

Chromo
Paper

High Gloss
Paper

Maplitho Paper

Metalized Paper

Holographic
Metalized Paper

Direct Thermal
Paper

FILMIC FACE STOCKS

PP White

PP Silver

PP Clear

PE Clear

PE-White

Clear-On Clear
(COC)

PET White

These Films are either corona treated or chemically treated. Face stocks have excellent Printability and has good bonding with inks and adhesives.

UNCOATED/SILICONE COATED RELEASE LINERS

Chemline offers the following varieties of release liners in various GSM

- ▶ Glassine paper release
- ▶ Clay Coated Kraft (CCK)
- ▶ Super Calendered Kraft (SCK)
- ▶ Polyester film based (PET LINER)

A Perfect quality release liner exhibits properties such as :

- ▶ Easy peel off
- ▶ Low heat shrinkage
- ▶ Lay flatness
- ▶ Smoothness
- ▶ Stable release force
- ▶ Flexibility
- ▶ Die Cut Performance

In-house manufacturing of Clay Coated Kraft (CCK)

- ▶ Based on virgin white paper
- ▶ Based on recycled white
& brown Kraft

Release Base Papers
Based On Recycled Papers

Product Selection Guide

Printing Substrate	Paper/ Film	Applications	Advantages	Paper/ Film GSM	Liner	Liner GSM	Adhesive	Peel Adhesive (N/cm)	Loop Tack (N/cm)
Uncoated Paper	Maplitho	For 1-2 colour basic printing for brand identification as it does not give sharp edge, mostly printing is done by thermal ribbons for barcode labels	Low Cost label printing can be done instantly with thermal ribbon printers	60-70	Glassine	60	Hotmelt	4.5	4.5
Semi Gloss Paper	Chromo	Suitable for all types of economical labels, largely used for multicolour printing with sharp edge and used for all types of products.	Medium cost, multipurpose, suitable for all type of basic labels	60-90	Glassine	60	Hotmelt	6.0	6.0
Semi Gloss Paper Sheet	Chromo	Multicolour offset printing in sheet form.	Cost effective, all types of label shapes can be printed, manual application	70-90	SCK	65-90	Hotmelt	6.0	6.0
	Chromo	Multicolour digital printing in roll & sheet form.	Cost effective, quick printing of label, all types of labels shapes can be printed	70-90	CCK	67-120	Acrylic	6.0	6.0
Metalized Paper	Chromo Metalized	For better gloss & attractive look, it is used for high value products for cosemetic and liquor industry.	Rich feel of label, sharp & bright printing make product attractive.	80	Glassine	60	Hotmelt	6.0	6.0
DT Paper	Thermal Chromo	This heat sensitive paper is economical solution for bar code labels, thermal printing is required to print the label.	Cost effective, instant printing with thermal printer, mostly used for billing where very less life of label is required.	80	Glassine	60	Hotmelt	6.0	6.0
PP Film	PP White	For superior quality and durability of labels, generally used in FMCG, cosmetic & lubricant industry PE-Colour PE White	Resistant to tearing, abrasion & chemicals, better die cutting and printability.	43	Glassine	60	Hotmelt	5.0	5.0
	PP Silver			45	Glassine	60	Hotmelt	5.0	5.0
	PP Clear			45	Glassine	60	Hotmelt	5.0	5.0
PP Film Sheet	PP White	For superior quality printing in sheet form	Suitable for promotional labels, long life, low impact of environment.	43	CCK	90-120	Hotmelt/ Acrylic	5.0	5.0
	PP Silvee			45	CCK	90-120	Hotmelt/ Acrylic	5.0	5.0
Pet Film	Pet White	For better print quality and long durability of labels, it is used for small labels for curved surface and big labels for PET bottles.	Resistance to heat, tears, abrasion & chemicals, better die cutting and printability, for outdoor application.	70	Glassine	60	Hotmelt	5.0	5.0
	Pet Silver			70	Glassine	60	Hotmelt	5.0	5.0
PVC Film	Poly Vinyl Chloide	For Better Printing & long durability of labels, mostly used for battery label.	Durable, suitable for indoor and outdoor flexible, easy to convert, corona treatment is not required.	75	Glassine	60	Hotmelt	5.0	5.0
				75	CCK	90-120	Hotmelt	5.0	5.0
PE Film	PE White	Ideal for curved or uneven surfaces	Suitable for tubes & square Bottles.	80	Glassine	60	Hotmelt	5.0	5.0
	PE Clear			75	Glassine	60	Hotmelt	5.0	5.0

Note: above grade available in sheet form for both offset and digital printing
